

## Color Paste White

150 ml

**Pigment concentrate for lightening all solvent-containing and solvent-free and solvent-free BIOFA oils for interior use.**

- fully declared
- with natural raw materials
- light hardwoods as well as conifers retain their naturally light character

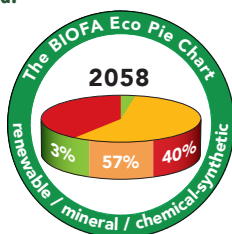

### Properties:

BIOFA Colour Paste white is a pigment concentrate for lightening all solvent-based and solvent-free BIOFA oils. With this tint, light hardwoods as well as softwoods retain their light natural character. The natural darkening of the wood is reduced.

### Ingredients:

Titanium dioxide, aromatic-free highly purified white spirit, alumina, wetting agent, swelling clay, defoamer.

### Processing steps:

BIOFA Farbpaste weiß wird gründlich aufgeschüttelt, und bis zu 10% in das jeweilige Öl vor der Verarbeitung homogen eingerührt. Das pigmentierte Öl von Zeit zu Zeit erneut gut aufrühren.

**Important:** Please strictly observe the processing instructions of the respective oil according to its technical data sheet! A preliminary test should always be carried out. This is especially important for veneered wood as well as darker and coarse-pored woods. Ensure that the surfaces are very well sanded. Sanding defects become very visible through oiling! Ensure optimal fresh air circulation during processing and drying of the products! Do not process below 16°C!

### Equipment Cleaning:

Clean immediately after use with BIOFA Thinner 0500.

### Storage:

Keep cool, dry and properly sealed.

### Container:

Glass bottle 150 ml

### Disposal:

Liquid product residues and containers that have not been emptied and cleaned should be taken to a collection point for old paints/lacquers or disposed of in accordance with local/national regulations. Small residues and soaked working materials can be disposed of with household waste after drying out.

Only empty and clean containers should be sent for recycling.

AVV waste code according to European waste list: 08 01 11\*

### Hazard and safety information:

**Caution! Spraying may produce hazardous respirable droplets. Do not inhale aerosol or mist. Repeated contact may cause brittle or cracked skin. Keep out of the reach of children. If medical advice is needed, have container or label at hand. Do not get in eyes, on skin or on clothing. Ensure adequate skin protection. IF ON SKIN: Wash off with plenty of soap and water. Use only outdoors or in well-ventilated areas. Do not allow to enter waters, drains or soil.**
